

## How to measure double wrap strap

### **INSTRUCTIONS ON HOW TO MEASURE DOUBLE WRAP STRAP**

#### **Step one: Identify double wrap strap**

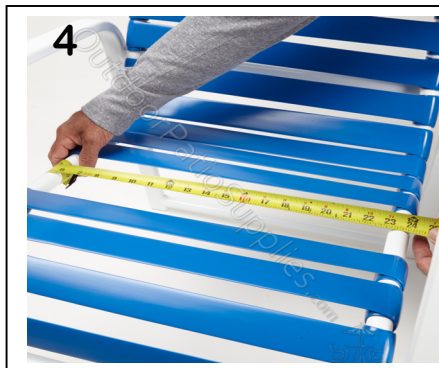

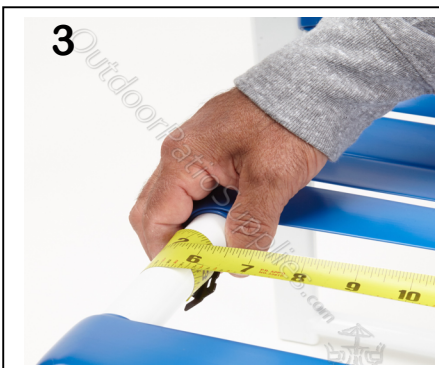

The holes are located on the bottom part of the chair frame as shown in (Pic.1)

#### **Step two: Measure strap width**

Place tape measure in the middle of the strap.  
If it measures between 1 ¼" to 1 ½", order 1 ½" strap.  
If it measures between 1 ¾" to 2", order 2" strap.  
See (Pic.2)

#### **Step three: Measure strap length**

Place tape measure at the center of the bottom hole on the left side of the frame, wrap the tape around the frame twice and across to the outside part of the frame to the right side (without wrapping the frame). See (Pic.3 & 4)
